

TABLE 2.3.A
Provisions for Dangerous Goods Carried by Passengers or Crew
(Subsection 2.3)

Dangerous goods must not be carried in or as passengers or crew, checked or carry-on baggage, except as otherwise provided below. Dangerous goods permitted in carry-on baggage are also permitted "on one's person", except where otherwise specified.

The pilot-in-command must be informed of the location				
Permitted in or as carry-on baggage				
Permitted in or as checked baggage				
The approval of the operator is required				
Alcoholic beverages, when in retail packagings, containing more than 24% but not more than 70% alcohol by volume, in receptacles not exceeding 5 L, with a total net quantity per person of 5 L.	NO	YES	YES	NO
Note: Alcoholic beverages containing 24% or less alcohol by volume are not subject to any restrictions.				
Ammunition, securely packaged (in Div. 1.4S, UN 0012 or UN 0014 only), in quantities not exceeding 5 kg gross weight per person for that person's own use. Allowances for more than one person must not be combined into one or more packages.	YES	YES	NO	NO
Avalanche rescue backpack, one (1) per person, containing cartridges of compressed gas in Div. 2.2. May also be equipped with a pyrotechnic trigger mechanism containing no more than 200 mg net of Div. 1.4S. The backpack must be packed in such a manner that it cannot be accidentally activated. The airbags within the backpacks must be fitted with pressure relief valves.	YES	YES	YES	NO
Baggage with installed lithium batteries non-removable batteries exceeding–0.3 g lithium metal or 2.7 Wh.	FORBIDDEN			
Baggage with installed lithium batteries:	NO	YES	YES	NO
– non-removable batteries. Batteries must contain no more than 0.3 g lithium metal or for lithium ion must not exceed 2.7 Wh;				
– removable batteries. Batteries must be removed if baggage is to be checked in. Removed batteries must be carried in the cabin.				
Batteries, spare/loose, including lithium batteries, non-spillable batteries, nickel-metal hydride batteries and dry batteries (see 2.3.5.8) for portable electronic devices must be carried in carry-on baggage only. Articles which have the primary purpose as a power source, e.g. power banks are considered as spare batteries. These batteries must be individually protected to prevent short circuits. Lithium metal batteries: the lithium metal content must not exceed 2 g (see 2.3.5.8.4). Lithium ion batteries: the Watt-hour rating must not exceed 100 Wh (see 2.3.5.8.4). Each person is limited to a maximum of 20 spare batteries. *The operator may approve the carriage of more than 20 batteries. Non-spillable batteries: must be 12 V or less and 100 Wh or less. Each person is limited to a maximum of 2 spare batteries (see 2.3.5.8.5).	NO*	NO	YES	NO
Camping stoves and fuel containers that have contained a flammable liquid fuel, with empty fuel tank and/or fuel container (see 2.3.2.5 for details).	YES	YES	NO	NO
Chemical Agent Monitoring Equipment, when carried by staff members of the Organization for the Prohibition of Chemical Weapons on official travel (see 2.3.4.4).	YES	YES	YES	NO
Disabling devices such as mace, pepper spray, etc. containing an irritant or incapacitating substance are forbidden on the person, in checked and carry-on baggage.	FORBIDDEN			
Dry ice (carbon dioxide, solid), in quantities not exceeding 2.5 kg per person when used to pack perishables not subject to these Regulations in checked or carry-on baggage, provided the baggage (package) permits the release of carbon dioxide gas. Checked baggage must be marked “dry ice” or “carbon dioxide, solid” and with the net weight of dry ice or an indication that there is 2.5 kg or less dry ice.	YES	YES	YES	NO
e-cigarettes (including e-cigars, e-pipes, other personal vaporizers) containing batteries must be individually protected to prevent accidental activation (see 2.3.5.8.2).	NO	NO	YES	NO
Electro shock weapons (e.g. Tasers) containing dangerous goods such as explosives, compressed gases, lithium batteries, etc. are forbidden in carry-on baggage or checked baggage or on the person.	FORBIDDEN			
Fuel cells containing fuel, powering portable electronic devices (e.g. cameras, cellular phones, laptop computers and camcorders), see 2.3.5.9 for details.	NO	NO	YES	NO
Fuel cell cartridges, spare for portable electronic devices, see 2.3.5.9 for details.	NO	YES	YES	NO
Gas cartridges, small, non-flammable containing carbon dioxide or other suitable gas in Division 2.2. Up to two (2) small cartridges fitted into a self-inflating personal safety device, intended to be worn by a person, such as a life jacket or vest. Not more than two (2) devices per passenger and up to two (2) spare small cartridges per device, for other devices not more than four (4) cartridges up to 50 mL water capacity. (see 2.3.4.2).	YES	YES	YES	NO
Gas cylinders, non-flammable, non-toxic worn for the operation of mechanical limbs. Also, spare cylinders of a similar size if required to ensure an adequate supply for the duration of the journey.	NO	YES	YES	NO
Hair styling equipment containing a hydrocarbon gas cartridge, up to one (1) per passenger or crew-member, provided that the safety cover is securely fitted over the heating element. This hair styling equipment must not be used on board the aircraft. Spare gas cartridges for such hair styling equipment are not permitted in checked or carry-on baggage.	NO	YES	YES	NO

TABLE 2.3.A
Provisions for Dangerous Goods Carried by Passengers or Crew
(Subsection 2.3) (continued)

The pilot-in-command must be informed of the location				
Permitted in or as carry-on baggage				
Permitted in or as checked baggage				
The approval of the operator is required				
Insulated packagings containing refrigerated liquid nitrogen (dry shipper), fully absorbed in a porous material containing only non-dangerous goods.	NO	YES	YES	NO
Internal combustion or fuel cell engines, must meet A70 (see 2.3.5.12 for details).	NO	YES	NO	NO
Lithium Batteries: Portable electronic devices (PED) containing lithium metal or lithium ion cells or batteries, including medical devices such as portable oxygen concentrators (POC) and consumer electronics such as cameras, mobile phones, laptops and tablets (see 2.3.5.8). For lithium metal batteries the lithium metal content must not exceed 2 g and for lithium ion batteries the Watt-hour rating must not exceed 100 Wh. Devices must be protected from damage and inadvertent activation. Those in checked baggage must be completely switched off. Each person is limited to a maximum of 15 PED. *The operator may approve the carriage of more than 15 PED.	NO*	YES	YES	NO
Lithium batteries, spare/loose, including power banks, see Batteries, spare/loose				
Lithium battery-powered electronic devices. Lithium ion batteries for portable (including medical) electronic devices, a Wh rating exceeding 100 Wh but not exceeding 160 Wh. For portable medical electronic devices only, lithium metal batteries with a lithium metal content exceeding 2 g but not exceeding 8 g. Devices must be protected from damage. Devices in checked baggage must be completely switched off.	YES	YES	YES	NO
Lithium batteries, spare/loose with a Watt-hour rating exceeding 100 Wh but not exceeding 160 Wh for consumer electronic devices and PMED or with a lithium metal content exceeding 2 g but not exceeding 8 g for PMED only. Maximum of two spare batteries in carry-on baggage only. These batteries must be individually protected to prevent short circuits.	YES	NO	YES	NO
Matches, safety (one small packet) or a small cigarette lighter that does not contain unabsorbed liquid fuel, other than liquefied gas, intended for use by an individual when carried on the person. Lighter fuel and lighter refills are not permitted on one's person or in checked or carry-on baggage.	NO	ON ONE'S PERSON		NO
Note: "Strike anywhere" matches, "Blue flame" or "Cigar" lighters or lighters powered by a lithium battery without a safety cap or means of protection against unintentional activation are forbidden (see 2.3.5.8.4(e)).				
Mobility Aids: Battery-powered wheelchairs or other similar mobility devices with non-spillable wet batteries, nickel-metal hydride batteries or dry batteries, (see 2.3.2.2).	YES	YES	NO	YES
Mobility Aids: Battery-powered wheelchairs or other similar mobility devices with spillable batteries or with lithium ion batteries (see 2.3.2.3 and 2.3.2.4 for details).	YES	YES	NO	YES
Mobility Aids: Battery-powered wheelchairs or other similar mobility devices with lithium ion batteries where the design of the mobility aid does not provide adequate protection for the battery(ies) (see 2.3.2.4.3 for details).	YES	NO	YES	YES
Non-radioactive medicinal or toiletry articles (including aerosols) such as hair sprays, perfumes, colognes and medicines containing alcohol; and Non-flammable, non-toxic (Division 2.2) aerosols, with no subsidiary hazard, for sporting or home use (see 2.3.5.1).	NO	YES	YES	NO
The total net quantity of non-radioactive medicinal or toiletry articles and non-flammable, non-toxic (Division 2.2) aerosols must not exceed 2 kg or 2 L and the net quantity of each single article must not exceed 0.5 kg or 0.5 L. Release valves on aerosols must be protected by a cap or other suitable means to prevent inadvertent release of the contents.				
Oxygen or air, gaseous, cylinders required for medical use. The cylinder must not exceed 5 kg gross weight.	YES	YES	YES	YES
Note: Liquid oxygen systems are forbidden for transport.				
Permeation devices, must meet A41 (see 2.3.5.13 for details).	NO	YES	NO	NO
Radioisotopic cardiac pacemakers or other devices, including those powered by lithium batteries, implanted into a person or fitted externally.	NO	ON ONE'S PERSON		NO
Security-type equipment (see 2.3.2.6 for details).	YES	YES	NO	NO
Security-type attaché cases, cash boxes, cash bags, etc. incorporating dangerous goods, such as lithium batteries and/or pyrotechnic material, except as provided in 2.3.2.6 are totally forbidden. See entry in 4.2–List of Dangerous Goods.		FORBIDDEN		
Specimens, non-infectious packed with small quantities of flammable liquid, must meet A180 (see 2.3.5.11 for details).	NO	YES	YES	NO
Thermometer, medical or clinical, which contains mercury, one (1) per person for personal use, when in its protective case.	NO	YES	NO	NO
Thermometer or barometer, mercury filled carried by a representative of a government weather bureau or similar official agency (see 2.3.3.1 for details).	YES	NO	YES	YES

Note:

The provisions of Subsection 2.3 and Table 2.3.A may be limited by State or operator variations. Passengers should check with their airline for the current provisions.

Objects banned from the aircraft

 <p style="text-align: center;">Explosives</p> <p>Munitions, fireworks, detonators, material for expeditions, mines, grenades, flares, military use explosive loads, fireworks, pyrotechnic materials, smoke canisters, dynamite, gunpowder and plastic explosives.</p>	 <p style="text-align: center;">Inflammable liquids</p> <p>Inflammable liquids, such as fuel, diesel oil, methanol, paints, varnishes, solvents, adhesives, turpentine, petroleum or alcohol.</p>	 <p style="text-align: center;">Inflammable solids and reagents</p> <p>Inflammable solids such as magnesium, fireworks lighters, celluloid films, sulphur, coal, matches or any other inflammable substance.</p>	 <p style="text-align: center;">Oxidising materials and organic peroxide</p> <p>Oxidising materials and organic peroxides, such as bleach, bodywork repair kits, fertilisers or chlorates.</p>
 <p style="text-align: center;">Toxic or infectious substances</p> <p>Toxic or infectious substances, such as incapacitating devices, samples for diagnosis, vaccines, rat poison, insecticides, herbicides, pesticides, arsenic, infected blood, bacteria or virus.</p>	 <p style="text-align: center;">Radioactive material</p> <p>Radioactive material, such as pharmaceutical products with radioactive isotopes.</p>	 <p style="text-align: center;">Corrosives</p> <p>Corrosives, such as acids, alkalis, apparatuses with mercury, electrical accumulators, car batteries or other apparatuses activated electrically by batteries.</p>	 <p style="text-align: center;">Lithium batteries and e-cigarettes</p> <p>Lithium batteries, e-cigarettes* and other dangerous items such as first-aid kits, ferromagnetic material, dry ice and car batteries. * transport permitted only in the cabin</p>
 <p style="text-align: center;">Carrying cases and security bags</p> <p>Security equipment such as portfolios, strongboxes or money bags with lithium batteries or pyrotechnics. Smart bags are accepted only if the batteries are removed and they fly with you on board</p>	 <p style="text-align: center;">Gasses and gas cylinders</p> <p>Compressed gases, liquefied gases, refrigerated liquefied gases or dissolved gases, such as propane, butane, acetylene, oxygen, nitrogen, insecticides, scuba tanks or lighters refills.</p>	 <p style="text-align: center;">Other dangerous items</p> <p>Other items such as petrol engines, magnetized materials, lithium batteries or genetically modified organisms.</p>	 <p style="text-align: center;">Liquid oxygen systems</p> <p>Liquid oxygen systems and electroshock weapons which contain explosives, compressed gases or lithium batteries.</p>

Amended Power Bank requirements for crew and passengers:

- Must be carried as carry-on baggage.
- Must not be recharged while on board the aircraft.
- Should not be used to recharge a portable electronic device while on board the aircraft.
- No more than two power banks may be carried per person.
- Must be individually protected to prevent short circuits when not in use (by placement in original retail packaging or by otherwise insulating terminals, such as by taping over exposed terminals or placing each power bank in a separate plastic bag or protective pouch).

Requirements for Operators carrying electronic devices containing lithium cells or batteries:

- a) Spare lithium batteries and power banks must be individually protected to prevent short circuits when not in use.
- b) Measures must be taken to prevent the unintentional activation of the portable electronic devices
- c) The batteries must:
 1. be of a type which meets the requirements of each test in the UN Manual of Tests and Criteria, Part III, subsection 38.3; and
 2. for lithium metal batteries, not exceed a lithium content of 2 g, and for lithium-ion batteries, not exceed a Watt-hour rating of 100 Wh.

In addition to the above newly introduced restrictions, power banks must continue to meet the following:

- power banks up to 100 Wh rating (lithium ion) or 2 g lithium content (lithium metal) are allowed without operator approval
- power banks greater than 100Wh rating (lithium ion) but not exceeding 160Wh require approval from the operator.

Objects banned from the cabin

 <p>Guns and firearms</p> <p>Weapons in general and other devices that discharge projectiles (pistols, revolvers, rifles, shotguns, compressed air pistols/flare guns/toy pistols/paintball guns, replicas/imitation firearms, crossbows, bows for arrows, harpoons-fishing guns, slingshots, catapults). In case you are transporting a firearm, you must check the bag directly with a check-in agent.</p>	 <p>Stunning devices</p> <p>Devices designed specifically to stun (stun guns, tasers, stun batons, animal stunners/animal killers, mace, pepper sprays, capsicum sprays, tear gas, acid sprays, animal repellent sprays)</p>	 <p>Sharp weapons or objects or ones with edges</p> <p>Objects with a sharp point or sharp edge (axes, hatchets, ice picks, razor blades, box cutters, arrows, darts, harpoons, javelins, ski/hiking poles, martial arts equipment with a sharp point or sharp edge, swords, sabres, scissors, knives and any other sharp object).</p>
 <p>Tools</p> <p>Work tools such as crowbars, hammers, drills, saws, circular saws, blowtorches, bolt guns, etc. can only be transported or carried as cargo.</p>	 <p>Blunt instruments</p> <p>Blunt instruments (bats, batons, clubs, golf clubs, oars, skateboards, fishing rods, martial arts equipment).</p>	 <p>Explosives and incendiary substances</p> <p>Substances and devices capable, or appearing capable, of being used to cause serious injury or to pose a threat to the safety of aircraft (ammunition, blasting caps, detonators, imitation explosive devices, mines, grenades, pyrotechnics, smoke-generating canister/cartridges, dynamite, gunpowder, plastic explosives).</p>
